

Cafeteria Payments, Account Balances & Meal History available ***NOW ON LINE.***

Based on input from parents, this past fall, we implemented an upgrade to our cafeteria systems using a company called MealsPlus. The new system now allows parents to:

1. Pay into and see the account balances of kids, on-line.
If you pay on-line at www.k12paymentcenter.com, the following MealsPlus fees apply:
 - a. \$1.95 transaction fee each time you deposit money. There is no maximum deposit per transaction.
 - b. \$10 dollar, one-time fee for the premium package which enables you to see what your kids are eating. The basic package allowing you to see your account balances on-line is free.
2. You may still pay by dropping off an envelope in the boxes at school with your kids name & account# on it.

All fees are set by and are remitted to MealsPlus. If you prefer to continue to pay by dropping money in the box at school, you may still open an on-line account to see account balances or what your kids have been purchasing in the cafeteria.

How to set up Your Account:

- Got to www.k12paymentcenter.com and add each student/child. **You will need each child's school ID number.** Your kids know their ID# because they currently use it each day in the cafeteria.
- You will have a choice of basic versus premium packages.
 - Basic Package: Is free and you can see your account balances.
 - Premium Package: \$10 fee (one time) which allows you to see child's purchases.

Other Features:

- **Email Notices about low balances:** During setup, you can set the amount at which you want to receive an email that your balance(s) is low. This is included in both the Basic and Premium packages.
- **Lunch Menu:** In the future, the menu will be loaded on-line. For now, you can go to the school web-site at <http://www.jackson-center.k12.oh.us/>
- **Paying other fees on-line:** While the system also is capable of allowing us to pay and receive other fees on-line, we have chosen to not use this function at this time.
- **There is a Facebook app.** that allows you to pay on-line as well.
